

MERLIN

IT'S YOUR TIME TO FLY

Service area: North America, Central America, and the Caribbean

WHAT SETS US APART

Largest mid-size jet fleet in the San Antonio and Austin regions

Dispatch reliability over 99%

Nine in-house mechanics with significant aircraft specific training and experience

No call center – work directly with the same on-call scheduler from first point of contact to wheels down at your destination

One aircraft type provides for operating cost efficiencies and better reliability, resulting in lower prices for our clients

MERLIN1 JET CARD

IT'S YOUR TIME TO FLY

Option A, Standard Program:

25-Hour Jet card at \$7,200 per hour

- Hourly rate includes crew days and overnights assuming your trip is 4 days or less
- On trips exceeding 4 days and 3 nights and one-way trips, empty leg flight hours will be deducted at a rate of .5 flight hours per flight hour

Option B, Occupied Legs Only:

25-Hour Jet Card at \$9,000 per hour

- No empty leg charges

Both hourly rate options do not include FET taxes

Only additional fees include international travel fees and special event fees if required (e.g. Super Bowl, Masters, Kentucky Derby, etc.)

We charge wheels up to wheels down

ABOUT THE CITATION 650

Stand-up headroom cabin comfort for eight

Enclosed private lavatory

Non-stop range from Texas to either coast

60 cubic feet of baggage capacity

Each aircraft in the fleet has recently been refurbished, interior, paint and WiFi capability

Trip interruption insurance – In the rare occurrence when a mechanical delay interrupts a Jet card client trip, most charter companies reimburse the cost of the incomplete legs and wish the client the best. At MERLIN1, we will dispatch the nearest plane to the client's location and complete the trip at no incremental cost

No initiation/membership fees or surprise add-ons including blackout dates, fuel surcharges, and landing fees

No owner approval 48-hour guaranteed access

Concierge service Complimentary catering

Arg/US Gold rated 2-pilot crews and Wyvern registered operator
